Leon & Barbara Carachilo - Carachilo Inc. 21' MILLENNIUM SERIES - BUILD DATE: Dec 2011

Leon and Barbara Carachilo are no strangers to Schantz trailers. In fact they've got 6. But they wanted their latest trailer to really have a wow factor. "Our '75 is still a nice trailer, as is our '05, but we really wanted all the bells and whistles, something that would turn heads everywhere we went. We got the WOW factor in this trailer," stated Leon. "The retractable wheel system is state of the art and there are no others out there that can match it. We have a competitors trailer without the retractable wheel and it sits in the garage. We won't use it."

Barbara is really excited about the ease of working the trailers. "Schantz trailers are so easy to operate. Everything is setup the way we want it. With the two grills we basically have two trailers in one; we can serve six lines at once!"

Leon commented on the relationship with Schantz Mfg., "I talked to Mike Schantz at Gibtown last year and asked him to come to New Jersey to see our operation...I invited a competitor too. Mike showed up, the other guy didn't. That sealed the deal. Schantz knows us, knows what we want and we have a good partnership. I always ask my customers if they would come back and do business with me...If you don't have repeat business you don't have business. We're happy with our relationship with Schantz, and my family will be back."
